news: there are lots of ways to work with wood and anyone can get a few tools and start making projects.

Everyday Woodworking starts at the very beginning—with wood. How can this common material make everything from furniture to houses?

What makes it so strong? Why does it break? More importantly, what can you do to a piece of wood?

Sometimes we cut it with a saw. Other times, we split it with an ax or shave it with a knife. This book explains why we choose each tool and how to pick the right cut for any project.

As Rex likes to say: "Trust me, it's not hard." Once you

what size shop you will need? Maybe you like the idea of woodworking as a way to turn a profit, occupy down time, or just to learn a new skill. Or perhaps you found a field that you are interested but you don't know what tools you need to buy? Well, you've come to the right place! There are a lot of websites, DIY instructions, and blogs out there that will show you the easy way or 'hack' of how to build furniture, but a true woodworker takes skill, knowledge, and practice to create works of art that will last generations. Don't fall for the 'quick' and 'simple' gimmicks. Instead,
