"I've tried to be a good husband to you," said Ender. "I never said I could protect you from everything, but I did all I could." "If you had, my Esteavao would be alive." She turned away, and Dona Crista escorted her back inside the school. Ender watched her until she turned a corner. Then he turned away from the door and left the school.

Xenocide is a science fiction novel by American writer Orson Scott Card, the third book in the Ender's Game series. It was nominated for both the Hugo and Locus Awards for Best Novel in 1992. The title is a combination of 'xeno-', meaning alien, and '-cide', referring to the act of killing, together meaning the act of killing populations of aliens; comparable to genocide.

The war for survival of the planet Lusitania will be fought in the heart of a child named Gloriously Bright. On Lusitania, Ender found a world where humans and peguininos and the Hive Queen could all live together: where three very different intelligent species could find common ground at last. Or so he thought. Lusitania also harbors the descolada, a virus that kills all humans it infects, but which the peguininos require in order to become adults. The Starways Congress so fears the effects of the descolada, should it escape from Lusitania, that they have ordered the destruction of the entire planet, and all who live there. The Fleet is on its way, a second xenocide seems inevitable. Xenocide is the third novel in Orson Scott Card's Ender Quintet.

"The classic of modern science fiction"--Front cover.

In the conclusion of the Ender saga, Ender Wiggin confronts his ultimate challenge when his adopted world, Lusitania, is threatened by his old planet-destroying weapon, and his computer intelligence ally, Jane, is about to be killed off by the Starways Congress. Reprint. 20,000 first printing.

Presents a collection of four novels that feature the character Ender Wiggin.

The war for survival of the planet Lusitania will be fought in the heart of a child named Gloriously Bright. On Lusitania, Ender found a world where humans and peguininos and the Hive Queen could all live together: where three very different intelligent species could find common ground at last. Or so he thought. Lusitania also harbors the descolada, a virus that kills all humans it infects, but which the peguininos require in order to become adults. The Starways Congress so fears the effects of the descolada, should it escape from Lusitania, that they have ordered the destruction of the entire planet, and all who live there. The Fleet is on its way, a second xenocide seems inevitable. Xenocide is the third novel in Orson Scott Card's Ender Quintet.

After twenty-three years, Orson Scott Card returns to his acclaimed best-selling series with the first true, direct sequel to the classic Ender's Game. In Ender's Game, the world's most gifted children were taken from their families and sent to an elite training school. At Battle School, they learned combat, strategy, and secret intelligence to fight a dangerous war on behalf of those left on Earth. But they also learned some important and less definable lessons about life. After the life-changing events of those years, these children--now teenagers--must leave the school and readapt to life in the outside world. Having not seen their families or interacted with other people for years--where do they go now? What can they do? Ender fought for humanity, but he is now reviled as a ruthless assassin. No longer allowed to live on Earth, he enters into exile. With his sister Valentine, he chooses to leave the only home he's ever known to begin a relativistic-and revelatory--journey beyond the stars. What happened during the years between Ender's Game and Speaker for the Dead? What did Ender go through from the ages of 12 through 35? The story of those years has never been told. Taking place 3000 years before Ender finally receives his chance at redemption in Speaker for the Dead, this is the long-lost story of Ender. For twenty-three years, millions of readers have wondered and now they will receive the answers. Ender in Exile is Orson Scott Card's moving return to all the action and the adventure, the profound exploration of war and society, and the characters one never forgot. On one of these ships, there is a baby that just may share the same special gifts as Ender's old friend Bean... Included in this Orson Scott Card ebook bundle: Ender's Game and Ender's Shadow Ender's Game Andrew "Ender" Wiggin thinks he is playing computer simulated war games, at Earth's elite military academy, the Battle School; he is, in fact, engaged in something far more desperate. Ender may be the military genius Earth desperately needs in a war against an inscrutable alien that seeks to destroy all human life. The only way to find out is to throw Ender into ever harsher training, to chip away and find the diamond inside, or destroy him utterly. Ender Wiggin is six years old when it begins. He will grow up fast. Ender's Game is an international bestseller, read and loved by generations. It has been named one of the top ten science fiction novels of all time. Ender's Shadow Andrew "Ender" Wiggin was not the only child in the Battle School; he was just the best of the best. In Ender's Shadow, Card tells the story of another of those precocious generals, the one they called Bean--the one who became Ender's right hand, part of his team, in the final battle against the Buggers. Bean's past was a battle just to survive. His success brought him to the attention of the Battle School's recruiters, those people scouring the planet for leaders, tacticians, and generals to save Earth from the threat of alien invasion. Bean was sent into orbit, to the Battle School. And there he met Ender... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Orson Scott Card's The Last Shadow is the long-awaited conclusion to both the original Ender series and the Ender's Shadow series, as the children of Ender and Bean solve the great problem of the Ender Universe--the deadly virus they call the descolada, which is incurable and will kill all of humanity if it is allowed to escape from Lusitania. One planet. Three sapient species living peacefully together. And one deadly virus that could wipe out every world in the Starways Congress, killing billions. Is the only answer another great Xenocide? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A FALLEN HERO - HAUNTED BY HIS PAST, BUT CAN HE CHANGE THE FUTURE? Ender Wiggin was once considered a great military leader, a saviour for mankind. But now history judges his destruction of an alien race as monstrous rather than heroic. In the aftermath of the war, Ender disappeared, and a powerful voice arose: The Speaker for the Dead, who told the true story behind the battle with the aliens. Now, years later, a second alien race has been discovered. But again they are strange and frightening - and again, humans are dying. It is only the Speaker for the Dead, secretly Ender Wiggin, who has the courage to confront the mystery . . . and the truth.

Ender's Shadow explores the stars in this all-new novel... At the end of Shadow of the Giant, Bean flees to the stars with three of his children--the three who share the engineered genes that gave him both hyper-intelligence and a short, cruel physical life. The time dilation granted by the speed of their travel gives Earth's scientists generations to seek a cure, to no avail. In time, they are forgotten--a fading ansible signal speaking of events lost to Earth's history. But the Delphikis are about to make a discovery that will let them save themselves, and perhaps all of humanity in days to come. For there in space before them lies a derelict Formic colony ship. Aboard it, they will find both death and wonders--the life support that is failing on their own ship, room to grow, and labs in which to explore their own genetic anomaly and the mysterious disease that killed the ship's colony. Shadows in Flight is the fifth novel in Orson Scott Card's Shadow Series.
