Please note: This is a companion version & not the original book. Sample Book Insights: #1 When I was hired as the head coach of the Atlanta Falcons in 2008, they had never had back-to-back winning seasons. The team was struggling with consistency and sustainability. I knew the first step I needed to take was to create a winning culture in which every member could thrive and excel. #2 I had to build the Falcons' culture from the bottom up. I made sure the owner and leaders were an integral part of the process, and I knew that to create a winning team on the field, I needed to involve more than just leadership, players, and staff. #3 The culture of a team is made up of the shared purpose, attitudes, values, goals, practices, and behaviors that define it. Everyone in an organization shapes the culture, and to be successful, you need everyone to be aligned with the same beliefs, expectations, behaviors, and habits. #4 The most important aspect of team sports is the culture, which is created by the leaders and coaches. It is the culture that will determine whether your players perform and execute.

Have you heard the rumor around campus about the locker room?If you haven't, let me enlighten you: Legend has it if you bring a girl into the sacred after-game domain of the baseball locker room, it will end with a walk down the aisle. One rowdy and naked encounter against the lockers with the girl of your dreams will make her your wife. Translation: baseball players are stupidly superstitious and believe the locker room has magical powers. But not all baseball players are superstitious, me included. So when the girl I've fallen for brushes me off, I start to question if I need to switch my way of thinking. Maybe it's time I finally hand out a coveted invitation to the locker room. The only question is, will she accept?

IT WAS AN HONEST MISTAKE... When Tom and Sheila Stanford buy Storage Locker #38, they think they're getting a few dozen boxes of misprinted T-shirts. They know nothing about the 640 million dollars of drug money hidden under all those T-shirts. Now Tom and Sheila are running for their lives, fighting to stay ahead of the murderous Canton Cartel. The assassins on their trail are utterly ruthless. For them, kidnapping, torture, and murder are all part of the job. But this time, they're not up against ordinary cops or civilians. Tom and Sheila Stanford are both retired from the United States Marine Corps. And there's no such thing as an ex-Marine...

In this inspirational yet practical book, the man Parade called **!**the most important coach in America! subject of the national bestseller Season of Life. Joe Ehrmann, describes his coaching philosophy and explains how sports can transform lives at every level of play, from the earliest years to professional sports. Coaches have a tremendous platform, says Joe Ehrmann, a former Syracuse University All-American and NFL star. Perhaps second only to parents, coaches can impact young people as no one else can. But most coaches fail to do the teaching, mentoring, even life-saving intervention that their platform provides. Too many are transactional coaches; they focus solely on winning and meeting their personal needs. Some coaches, however, use their platform. They teach the Xs and Os, but also teach the Ys of life. They help young people grow into responsible adults; they leave a lasting legacy. These are the transformational coaches. These coaches change lives, and they also change society by helping to develop healthy men and women. InSideOut Coaching explains how to become a transformational coach. Coaches first have to **!**go inside! and articulate their reasons for coaching. Only those who have taken the InSideOut journey can become transformational. Joe Ehrmann provides examples of coaches in his life who took this journey and taught him how to find something bigger than himself in sports.He describes his own InSideOut experience, starting with the death of his beloved brother, which helped him understand how sports could transcend the playing field. He gives coaches the information and the tools they need to become transformational. Joe Ehrmann has taken his message about the extraordinary power of sports all over the country. It has been warmly endorsed by NFL head coaches, athletic directors at major universities, high school head coaches, even business groups and community organizations. Now any parent-coach or school or community coach can read Ehrmann's message and learn how to make sports a life-changing experience.
